

Harrisburg University

MS Project Access Guide

Certain classes at Harrisburg University require access to Microsoft Project. To download Project software, you must be currently registered in one of the specified classes. The Project download is done through Office 365 and can be downloaded there once your account has been granted access. When your class has finished, the license for the software expires and you will need to remove the software from your computer.

Downloading Project

To download MS Project, go to <http://portal.office.com/OLS/MySoftware.aspx>
